

"People Helping People"

Parker Hannifin Corporation is a Fortune 250 global leader in motion and control technologies. For 100 years, the company has engineered the success of its customers in a wide range of industrial and aerospace markets. The Fergus plant has been open for over a decade and currently employs 19 local residents.

Parker Hannifin Fergus have been longtime supporters of health care in Centre Wellington and were Major Donors to the Redevelopment Campaign. Recently, they decided to increase their support to a total of **\$25,000** to the **New Groves Hospital Project**. This generous donation will name a **Private Inpatient Room in the Surgical Care Unit** in their honour.

Plant Manager, Charles Crocker shared; *"We were motivated to support Groves by our desire to embody our belief at Parker of 'People Helping People'. Members of our community are employed here, helping grow and develop our business. What better way to give back and show our support to the people who live and work here; than by supporting the future of health care."*

Worldwide, Parker employs 60,000 people; partnering with their customers

to help solve some of the world's greatest engineering challenges. Through the years they have aided worldwide with major catastrophes and natural disasters, while simultaneously supporting local causes like food and clothing drives, assistance for

seniors, and supporting STEM programs within local schools.

Crocker added; *"We are proud of our winning culture at Parker Hannifin and know that it is vital for us to make significant contributions to our community, for our*

generation and generations to come. We wanted to donate toward a project that will significantly help improve medical care for the town and the outlying areas; we felt that the New Groves Hospital Project was a perfect fit."

COMING IN 2020 *Your* NEW HOSPITAL

Groves Hospital Foundation is grateful to Parker Hannifin for their generosity and support of health care in Centre Wellington.
